### Communication in nurse

In some cases, we teach family members to do light touch to soothe their loved one, or to learn guided imagery techniques.

### The importance of relationships in mental health care: A qualitative study of service users' experiences of psychiatric hospital admission in the UK

And that's what I experienced in the psychiatric system. Inpatient treatments are done at the bedside.

### Cancer, Patients, Survivors

Service users in this study identified the central role of relationships in the patient experience, and their accounts clarify the important elements of relationships and how they inform patient experiences.

### Communication in nurse

I distrust my psychiatrist that much. Barriers to positive relationships included ineffective and negative communication, a lack of trust, a lack of safety in terms of staff as ineffective in preventing violence, and as perpetrators themselves, and the use of coercion by staff.
