The natural history of a portrait: 'Attenborough in Paradise' by Bryan Organ

. Yosemite, for example, which was so different in the New World, something that you could never find in the Old World, our treasures, our riches.

Green Cape Lighthouse

Here too an ambivalence: who do we see? Heritage Grant Application - Cintra. There may have been many more physical records of these first encounters from the Tahitian point of view, but because of cultural practices and the deleterious effects of the tropical climate few have survived to the present day. The office was run for six months by John Maddox and his right-hand person, Mary Sheehan, and had the dual purpose of increasing *Nature* subscriptions in the United States and bolstering the flow of manuscripts from US laboratories.

Vol. 35, No. 2, Apr., 1991 of Forest & Conservation History on JSTOR

Leicester University Press, London, England, UK. The naval and scientific authorities who had commissioned the expeditions snapped up these collections, as did art academies, museums of art and of natural history, and libraries throughout Europe. So it was originally under water.
