Russian

The 28th edition of the IAEA Fusion Energy Conference FEC 2020 will be hosted jointly by the French Alternative Energies and Atomic Energy Commission CEA and the ITER Organization. Accessible from the home page of the ITER website yellow icon or by clicking on the link below, the 2D tour requires no special equipment to enjoy. India plans to reboot its steady state superconducting tokamak, SST-1, on time to be showcased at the upcoming IAEA Fusion Energy Conference, reports the media platform The Better India.

DeFuniak Springs City council discusses broadband contracts for the city [PREMIUM]

Despite the controversy, 3He recently made headlines in relation with the recent landing of the Chinese rover Chang'e 4 on the dark side of the Moon. Heavy frames and robust plastic and tarpaulin wrapping will ensure adequate protection during transport of the sectors, each measuring approximately 11 metres in height, and during storage in Japan.

The Beast (Revelation)

Korea's superconducting tokamak KSTAR has run successfully.

The Beast (Revelation)

Prior to her administrative role at the center, she worked in the Delaware Department of Services for Children, Youth, and Their Families. The prize honours outstanding achievements in the field of plasma physics.

Overexploitation

Next year, the European tokamak JET will be re-introducing tritium into its vacuum vessel for the first time since 1997. The challenge is looking for submissions that include the following parameters: radii, plasma current, magnetic field strength, material composition of device wall and divertor, plasma shape, elongation and triangularity.

Russian

On 18 December 2017, the current was raised in the divertor coils and the very first X-point plasma was obtained in the France.
