What can education learn from the arts about the practice of education?

Good art—like everything else on which human life and happiness depend—is a product of rational thought and creative effort. New possibilities for matters of representation can stimulate our imaginative capacities and can generate forms of experience that would otherwise not exist. Individuals go through formal education only a Short period of their life.

What Does Liberal Arts Mean?

Education is the social process by which individual learns the things necessary to fit him to the social life of his society. DE: 49 Through the different types of experiences artworks can evoke, art too can be an important source of this sort of growth.

The Christian Philosophy of Education

Science was testable, the arts were matters of preference.

The Courage to Be Yourself: E.E. Cummings on Art, Life, and Being Unafraid to Feel

A group of 28 females matched in terms of College Board Scholastic Aptitude Test verbal and math scores were measured in terms of emotional well-being, study skills and readiness, and problem-solving abilities.

What can education learn from the arts about the practice of education?

Conversely, those with the highest graduation rates also had the greatest access to arts education and resources. Dewey finds this form of rhythm whenever each step forward is at the same time a summing up and fulfillment of what precedes, and every consummation carries expectation tensely forward. One thing replaces another, but does not absorb it, carry it on.

How We Think: John Dewey on the Art of Reflection and Fruitful Curiosity in an Age of Instant Opinions and Information Overload

Science was teachable, the arts required talent. Religious and scientific values will be reconciled and art will no longer be a mere luxury or a

stranger to everyday life. An important value that Dewey sees in art is related to these communal sides of experience.

What can education learn from the arts about the practice of education?

Egoism is based on and derived from the requirements of human life on earth; thus, people can practice it consistently and must do so—if they want to live and make the most of their lives. The mind of the natural man, for example, is capable of intellectual but not of spiritual perception.
