Chapter 4: The Big Cycles of the Dutch and British Empires and Their Currencies

Demographic growth meant that, by 1900, Europe's share of the world's population was 25%. The amount of natural forest in Western Europe is just 2—3% or less, in European Russia 5—10%. After the restoration of Greek imperial rule the city survived as the capital of Byzantium for another two centuries, but it never fully recovered.

The COVID

This effectively ended following a series of runs on the pound in the 1960s.

Myanmar Overview

The started in Europe, specifically the United Kingdom in the late 18th century, and the 19th century saw Western Europe industrialise. On 31 December 1998, the rate was almost exactly 8,000 to 1 U. The result of all this is that for the 1950s and early 1960s, the UK is best understood as a regional economic power and sterling as a regional reserve currency.

The failure of democratization in Russia: A comparative perspective

An in 1054 split the former Roman Empire religiously, with the in the and the Roman Catholic Church in the former Western Roman Empire. When the Ottomans overran their lands and besieged Constantinople in 1453, sheer poverty and weakness were the causes of the capital city's final fall.
