### Alexander the Great Ser.: Bring down the Sun by Judith Tarr (2008, Hardcover) for sale online

She takes real characters, places and times, and tells a story that builds on is known about them, imbuing the tale with the mystery of gods and magic. But her writing was nothing special and there was so little characterization that the protagonist was very hard to relate to. Unfortunately the only feeling I got was shock that the book was so bad.

Alexander the Great ruled the greatest Empire of the ancient world, but he was ruled by his mother, called Olympias.
