# CiteSeerX — Citation Query Mars Global Reference Atmosphere Model

Government, NASA, or any of its employees or contractors acting on its behalf. Geology of the InSight landing site on Mars. Observations showed that larger dust storms are usually the result of

merging smaller dust storms, but the growth mechanism of the storm and the role of atmospheric feedbacks are still not well understood.

## CiteSeerX — Citation Query Mars Global Reference Atmosphere Model

This paper extends a reconstruction of the lander's drift trajectory from atmospheric entry to landing. Compared to Earth's atmosphere, thermal tides have a larger influence on the Martian atmosphere because of the stronger diurnal temperature contrast.

#### The atmosphere of Mars as observed by InSight

In contrast, 36Ar is primordial: It was present in the atmosphere after the formation of Mars. Microscale pressure fluctuations measured within the lower atmospheric boundary layer. Mars' thin atmosphere and its greater distance from the sun mean that Mars is much colder than Earth.

#### CiteSeerX — Citation Query Mars Global Reference Atmosphere Model

Determining the size of the buffer zone is a multi-step process.

#### Mars' Atmosphere: Composition, Climate & Weather

Convective vortices and dust devils at the Phoenix Mars mission landing site. He has a journalism degree from the University of Kansas.
