Status Code Definitions

No indication is given of whether the condition is temporary or permanent. This response is only cacheable if indicated by a Cache-Control or Expires header field. Proxies MUST forward 1xx responses, unless the connection between the proxy and its client has been closed, or unless the proxy itself requested the generation of the 1xx response.

IPCS

The 204 response MUST NOT include a message-body, and thus is always terminated by the first empty line after the header fields.

Status Code Definitions

There were seven mothers who were killed along with four or three of their children.

On 'Conflict', 'Peace' and 'Genocide': Time for New Language on Palestine and Israel

Among the victims were a man and his wife and children, mothers and their children, or child siblings. If the client is a user agent, it SHOULD NOT change its document view from that which caused the request to be sent.

Status Code Definitions

The response SHOULD contain an entity describing why that version is not supported and what other protocols are supported by that server.

Status Code Definitions

Except when responding to a HEAD request, the server SHOULD include an entity containing an explanation of the error situation, and whether it is a temporary or permanent condition. The 202 response is intentionally non-committal.
