A Review on Value Chain in Higher Education

Situated cognition in theoretical and practical context. Modeling the problem-based learning preferences of McMaster University undergraduate medical students using a discrete choice conjoint experiment.

ADOPTION OF A LEARNING MANAGEMENT SYSTEM: A CASE STUDY IN THE HIGHER EDUCATION

Translated into advising practices, case management might include the following: targeted outreach to specific student populations, creation of individualized student success plans, intentional referrals to other departments and services, maintenance of detailed advising notes and student records, advocacy for student-centered policies and procedures at all institutional levels, and continual evaluation of the advising process and its effectiveness Richardson, 2008.

Higher Education in Management: The Case of Poland

RSS, often dubbed the poorer cousin of the Web2. Their unique Teaching Resource Manual offers numerous suggestions for creating a discussion-oriented, experiential classroom.

The Case for a Case Management Approach in Advising Academically Underprepared Students

.

The Case for a Case Management Approach in Advising Academically Underprepared Students

A large portion of the paper is focused on the theory debate surrounding connectivism, but regardless of the debate outcome, one theme keeps emerging: the learning needs of the millennial generation are not being met in the classroom. British Journal of Educational Studies, 52 2 , 138-150.

Risk Management in Higher Education

Student teachers' perceptions of instructional technology: Developing materials based on a constructivist approach. The cross-cultural challenges and the differences in the strategies taken by the managers in both types of program to deal with such challenges are analyzed. A blended learning approach to course design and implementation.

Knowledge Management Strategy within the Higher Education. The Case of Greece

International Journal of Web-Based Learning and Teaching Technologies, 1 2 , 18-30. They were passive in nature and did not support constructivist learning. Adolescence Programs at Plattsburgh State University of New York.
