Authority

I take the position that the inclusion of Latin words should be according to the qualified criterion of attestability.

List of Descriptive Adjectives

I think that no template, and especially this, should generate any automatical, default inflection forms. I don't see how combining in most cases identical 3 language sections into one is damaging in any kind. However, the compromise solution mentioned above has more or less held for the last two years.

Welsh Place Names • FamilySearch

These are where the pronunciations differences lie. Those are all common Croatian words, but they are literally non-existent in common Serbian speech, and even though most Serbian-speakers do understand them, newer generations are less likely to be able to understand them, because of political and linguistic divergence that I've already mentioned. Prohibited to do some thing and from going from some where Bare : Naked or without any covering Bear : 1.

List of Descriptive Adjectives

All of the current Wiktionary SC contributors support the unification.

Disorder

There's no basis for saying that cinematography is narrower than filmmaking; obviously OED thinks they are close equivalents, and film is currently

an improvement. Where applicable, users can hear words pronounced. And there is also the chance, one for which wikis are criticized, that editors who do not know what they are doing enter false information.

Appendix:Glossary of Welsh words of English origin

But all in all, as I said, these variant forms are non-lexical, and SC speakers understand them completely naturally, without any difficulties.
