Buddhist Philosophy: Essential Readings by William Edelglass

So, is there a holy book of Buddhism? Any unit of language precludes or rules out apoha other states of affairs rather than making positive assertions that are generalizing and nominal about sensations that are singular. That in 8 th grade science class we may learn that atoms are the most indivisible matter of life, but then in 9 th grade we will be told that in actuality atoms are made up of even tinier things called electrons, protons and neutrons. Finding and using your voice is an essential part of living the life you came here to live.
